SUMMARY

Detail-oriented Computer Science student with 3–4 years of technical experience and hands-on troubleshooting skills. Previous experience working at Amazon in a fast-paced, high-availability environment. Seeking an IT Support Engineer role to support infrastructure, resolve technical issues, and improve system performance.

TECHNICAL SKILLS

- Operating Systems: Windows, Linux (basic)
 - Networking: TCP/IP, DNS, DHCP, OSI model (basic understanding)
 - IT Support: Hardware/software troubleshooting, multi-user environments
 - Hardware: PC repair, setup, diagnostics, deployment
 - Systems: Basic system administration concepts
 - Tools: (Add if used: Wireshark, Nmap, Active Directory)
 - Other: Technical documentation, problem-solving, time management
-

PROJECTS

Evidex Project (Cybersecurity / Secure Data System)

- Designed a system for securely organizing and managing digital data
- Applied principles of data integrity, structured storage, and controlled access
- Simulated real-world handling of sensitive information and system reliability

System Troubleshooting & Technical Support Practice

- Diagnosed and resolved hardware and software issues across computer systems
 - Performed system setup, configuration, and optimization
 - Identified root causes of system issues and implemented solutions
-

EDUCATION

Bachelor's Degree in Computer Science (In Progress)
(Current School)

- Dual Enrollment: Computer Software (ECPI)
 - OSHA Certified
-

EXPERIENCE

Warehouse Associate (Operations) — Amazon

- Worked in a high-volume, high-availability production environment requiring system uptime and efficiency
- Utilized internal systems and technology to track, manage, and process inventory
- Quickly identified and resolved operational issues to maintain workflow continuity
- Collaborated with team members and leadership to meet performance targets
- Adapted to fast-paced conditions while maintaining accuracy and attention to detail

Crew Member — Little Caesars

- Delivered customer service in a fast-paced environment
- Managed multiple tasks efficiently while maintaining quality standards

Cook — Bojangles

- Maintained performance during long shifts and high-pressure situations
 - Followed procedures and ensured consistency and safety
-

ADDITIONAL

- Strong troubleshooting and analytical skills

- Ability to work independently and in team environments
 - Effective communication of technical concepts
 - Fast learner with strong work ethic
-

CERTIFICATIONS

- CompTIA Security+ (In Progress)
- CompTIA Network+ (Planned)
